Guide
Commercial
Managed Care
in Missouri

# Choosing a Managed Care Health Plan

Choosing a managed care plan can be complex and difficult. This 2005 Consumer's Guide helps you compare the quality of health care and member satisfaction among the commercial managed care plans in Missouri. Use this guide along with any coverage information your employer provides to help select the right plan for you or your family.

# Follow these steps to assist you in choosing a health plan:

- ◆ Use the comparison indicators in this brochure only in combination. No one indicator is a sole direct measure of a health plan's performance.
- Talk to your doctor, family and friends about their experiences with different plans.
- Come up with your own questions and call your plan choices for answers using the phone numbers provided.
- Draw on all information to evaluate your managed care options. Make the choice that best suits your needs.

## **Table of Contents**

### What Do Managed Care Plans Look Like?

Plan Name	Statewide Market Share 2004	National Accreditation for 2004	Administrative Expense Rating† 2002-2004	Complaint Index Rating† 2002-2004
Aetna Health Inc	3.2%	NCQA	$\Theta$

†This is a company-wide measure	<ul><li>High</li></ul>	<b>⊖</b> Average (	) Low	
Data Source: Missouri Department of Insurance				

This shows the percentage of the State's managed care plan members who are enrolled with a specific plan. It provides an indication not only of plan size but also of the plan's ability to meet the varied health care needs of its members.

Missouri managed care plans may voluntarily seek and qualify for accreditation, indicating that they meet national quality standards from the following organizations: National Committee for Quality Assurance (NCQA), Utilization Review **Accreditation Commission** (URAC) and Joint Commission on Accreditation of **Healthcare Organizations** (JCAHO).

This measure, which indicates efficiency, is the percentage of total income used for administrative overhead. Plans with administrative expenses less than 10% are shown as high performance, those at 15% or more are rated as low performers.

The complaint index looks at the number of consumer complaints the Department of Insurance received in the past three years relative to the amount of business that a company wrote in Missouri and compares this to the industry average. Plans at less than 50% of industry average are shown as or good performers; more than 100% of industry average is considered ○ or needing improvement.

- (1) No problem with paperwork, written materials or help from customer service.
- (2) Claims were correctly processed in a reasonable time.
- (3) No problem getting good doctors and nurses, referrals, and necessary care.
- (4) Overall rating of personal doctor seen most often.
- (5) Overall rating of specialist seen most often.
- (6) Overall rating of health plan.

# **Statewide Averages and Quality of Care Symbols Explained**

The percent on the "Statewide Averages" line indicate the average percent of all plans for each indicator shown in the header of the column. The Quality of Care Ratings reflect a statistical comparison of the plan's percentage on the indicator (measure) and the statewide average percentage for all plans. An Average ( ) rating for a specific plan means the plan scored close to the Statewide Average for that indicator. A High ( ) or Low ( ) rating means the plan scored much higher or much lower than the Statewide Average.
